

Fundraising-Is one of the important links in the crew program. The efforts of fundraising help to fund equipment, additional coaches, buses etc.... In our fundraising efforts we also include a community service twist. We have helped the Friends of Special Needs Program at the high school purchase a handicap van, Unico with pasta supper (they have given it all back to us and more in donations), and collected food and money for the Farmington Food pantry.

We are a group of Mom and Dads who get together a few nights to plan a fundraiser for the season . Fundraising is looking for a group of fun parents that can work together putting on an event that will help raise funds for the crew team. We have done several different fundraisers over the years and have found a few that seem to work well, and net a good profit. Because we have done them in the past the logistics are already worked out, we just need to execute.

The fundraisers we do are very large and need many people to do make them work. If it is only an hour or two we can find something for you to do. You can contact Darlene Cirilli 860-559-4575 or d.cirilli58@comcast.net for more information.

“Please join us as many hands make for light work”
